Before you import your data...

You'll have fewer errors to resolve if your data file is clean and free of duplicates. Watch video

Make sure your field names match Salesforce field names
You'll be required to map your data fields to Salesforce data fields. Take as unapparent fields in not imported view a list of Salesforce data fields.

Don't import too many records at once
Using the Data Import Wizard, import up to 50,000 records at a time. Importing too many records can slow down your org for all users, especially during periods of peak usage.
